1. The Zwoelfaxing (P 49/X 48) airfield was occupied by 45 to 50 twin-engine aircraft on 16 March 1950. The planes were the same type as those stationed at the Aspern (P 49/X 49) and Goetzendorf (P 49/X 57) airfields.
2. Thirty-nine Pe-2s were counted at the field on 3 April 1950. There was much flying with individual planes. An aircraft was towing a sleeve target but no firing practice was observed. Trucks B 4-54-65, B 4-54-67, B 4-54-69 and B 4-54-81 were seen at the field.

The report is considered credible, as both sources state an almost equal occupation strength. Thus the occupation has not changed compared with observations of February 1950. A bomber regiment of the I Gds Bmr Div is assumed still to be stationed in Zwoelfaxing.
